## ELLE Escapes: Palm Beach

There's something about Palm Beach. Maybe it's the namesake trees, or the prime people-watching, but the relaxed island known for its exclusive members' clubs and private beaches feels more desirable than ever, even with the gridlock that comes when the president stays at Mar-a-Lago. Cruise around with the windows down (might we suggest a [Maserati Grecale Trofeo](#)?) as you disassociate from reality and slip into a truly rarefied corner of Florida for a weekend synonymous with luxury and the lifestyle to match. Ahead of your next trip down south, we rounded up where the well-heeled snowbirds eat, drink, and shop.

## Where to Eat

Café Boulud

With its picturesque outdoor terrace at [The Brazilian Court Hotel](#), this much-talked-about Daniel Boulud-helmed restaurant lives up to the hype. Everything on the menu is good, but the White Cosmo (a mix of vodka, elderflower, and white cranberry, finished with an orchid ice cube) begs to be Instagrammed.

Though [LoLa 41](#) shares an address with [the White Elephant Palm Beach](#), the Pan-Asian restaurant is a destination on its own. Choose between sushi or Korean beef bulgogi over noodles, and don't miss the bar adorned with vintage coins sourced from all over the world. Fun fact: the name is a nod to the resort's Nantucket property.

For the uninitiated, the Nora (North of the Railroad) District in West Palm Beach is shaping up to be the city's next big thing, and [Del Mar](#) is part of the momentum. With a Mediterranean-inspired menu and a sprawling 12,000-square-foot space—including a 100-seat courtyard—it feels both inviting and refined. A standout is the Open Fire Roasted Shellfish Tower, designed for sharing (though no judgment if you decide to keep it all to yourself).
